### Re. Supply Chain Declaration.

#### **Dear Valued Customer**

Following interest from several parties, we have decided to issue a declaration of our supply chain origin. This is to show you the customer that we endeavour to supply the best quality products, all sourced from British producers. The exceptions are of course foreign cheeses, and Danish bacon.

Below is a statement concerning each product group as a whole.

Tough Standards. Tender Results

#### **Beef**

All of the beef we sell is selected from English stock. We are fortunate to use a family run producer with a processing facility in Hampshire. And all of the livestock is bought from local markets, and local farms personally, by the man who owns the abattoir. We have forged a good relationship with his chief salesman, and we can specify the breeds that we would like to sell.

One of the advantages of using a smaller Abattoir is that we get a copy of the animal Passport and movement history. This in turn allows us to give full traceability and farm assurance to every body of beef that we buy. Copies of Passports and other beef labelling information is available on request. All the beef we sell is from an EBLEX Source, so carries the Quality standard for farm assurance.

Tough Standards. Tender Results

#### **Lamb**

Predominantly all of our lamb is bought direct from the same Abattoir as our beef. When local lamb becomes too expensive, we switch to New Zealand lamb which has as good a quality at that time of year, but is marginally cheaper. Again all English lamb is delivered to us whole and fresh. New Zealand lamb is usually bought as primals frozen. All English lambs come from the same EBLEX source as our beef, so carry the Quality standard for farm assurance.

#### **Pork**

We only buy British outdoor reared farm fresh Pork. Nothing else. Our pork is selected from gilt carcasses only (Females) and comes from a family run producer in Essex, or our Hampshire abattoir supplies us with outstandingly good free range pork. We also have to special order only some lines of completely free range rare breed pork. Please phone for details. Standard pork lines are from outdoor reared herds, and the pork we buy is free range stamped, and farm assured.

### **Chicken**

The majority of the chicken we sell is from British producers. We have a policy of using only Higher welfare English poultry and we also cut Halal poultry fresh. Most of our chicken although not free range is of the best quality. Our Freeman's Range of chicken products is Red Tractor farm Assured. We also sell some EU sourced chicken as and when the Uk market is struggling with demand.

### **Turkeys**

Our turkeys are bought from the same supplier all year round. They are an English supplier based in Essex. The supplier is a farm fresh producer of finest white turkeys. They even grow the grain that feeds the turkeys on the same farm!

### **Eggs**

We can supply Free range eggs upon request, the free range eggs are produced for us on a Sussex farm. However all of our other eggs are produced from the new EEC controlled enriched cage system.

### **Ducks and Geese**

Whole ducks are produced for us by Gressingham fine foods, in Suffolk. The duck breasts are from an EU source, but we can supply English duck breasts from Gressingham upon request. We also stock cheaper EU frozen ducks and French Duck Legs. Our catering range of frozen duck breasts are from Poland.

### **Gammons**

We are fortunate to have a local producer that supplies us with gammons cured from Free Range, Farm Assured outdoor reared English pork legs. The gammons are batch produced and stored for us at the suppliers. We have a batch code system to cover gammon traceability.

### **Bacon**

The bacon that we supply on a wholesale basis is from a Danish producer, but supplied by a UK supplier. We can supply our own English Dry Cured bacon, smoked or green. This is available in small quantities, and prices although quite high reflect the quality of the bacon we produce. All pork used for the dry curing process is Red Tractor farm assured

I hope that this answers any questions, however if you should need more information then please do not hesitate to ask.

Thank you for your continued support and custom.

Yours sincerely

Daniel Parker
